I. PURPOSE

To establish policies and procedures to be followed when communicating with representatives of the news media regarding the operations of Corrections.

II. APPLICABILITY

To all Corrections personnel who come in contact with the media via personal interview or telephone while acting as a Corrections representative.

III. POLICY

It shall be the policy of Corrections to maintain positive working relations with the news media and to encourage all employees to participate in information sharing with the general public.

IV. PROCEDURES

- A. Requests by representatives of the news media to visit an institution, probation and parole office or community center shall be permitted and encouraged unless the Warden, District Supervisor or Community Center Coordinator determines that a visit constitutes a clear and present danger to the security of the facility, unreasonably interferes with the orderly administration of the facility, or endangers the safety of the reporter or reporters.
- B. Arrangements for interviews and visits by representatives of the media shall be made in advance and have a specified goal in mind; however, the official in charge may allow visits without prior arrangement if sufficient personnel are present and conditions are otherwise appropriate for the requested visit. The Central Office Public Information Officer (PIO) shall be notified prior to making these arrangements. Private prison and community center administrators shall notify the Central Office PIO prior to making a statement to the news media concerning Corrections policy issues.
- C. Interviews and Photographs

1. Media representatives may be permitted to interview an inmate or someone under supervision of probation and parole in a state correctional facility if the individual gives his written consent to be interviewed for a stated purpose, without compensation.
 - a. If the media representative does not wish to interview a specific individual, or if he wishes to interview various inmates or someone under supervision on a general subject, the Corrections official in charge shall work with the reporter in deciding which individuals are willing to be interviewed.
 - b. Portable tape or video recorders may be used by media representatives during an interview.
2. Representatives of the media shall be permitted to take photographs of specific parts of the correctional facility that are directly related to a particular news story; however, inmates and someone under supervision have the right not to be photographed.
 - a. If a news photographer wishes to photograph an inmate or someone under supervision in an identifiable manner, Corrections' Release Forms shall be made available for written consent. (See Attachment I.)
 - b. High security areas, control centers, control panels and any other area designated by the Warden for safety or security reasons shall not be photographed.

D. Dissemination of Information

1. Responsibility for information dissemination shall be shared by Central Office, institutional and community services administrators throughout the system. The Central Office PIO shall be responsible for disseminating news releases regarding Corrections policy, changes in executive personnel, or other policy or program decisions affecting statewide operations. A press release generated at the local office or institutional level shall be approved by the central office PIO before it is disseminated, unless it pertains to an extraordinary incident that occurs outside normal working hours or is of a routine nature including employee of the month or promotion announcements. These releases shall be approved by the institutional Warden or district supervisor prior to release. In these instances, the press release shall be sent to the central office PIO as soon as possible after being released to the media.

2. Institutional PIO's shall be responsible for the announcement of an escape, disturbance, accident and fatal or severe assault to the local news media as promptly as possible. Every effort shall be made to notify families of inmates that are involved in the emergency prior to release of information to the media. Names of involved staff shall not be released to the media until designated next of kin or family is notified. Prior to notifying the media, a telephone report shall be made to Adult Institutions. Adult Institutions shall then notify the central office PIO.
3. Although trained PIO's shall normally serve as the media spokesperson, occasionally other Corrections employees may be asked to respond to media interview requests. The respondent shall stay within the limits of his authority and area of expertise, and shall answer questions as honestly and concisely as possible. An administrator shall not hesitate to direct a reporter to the appropriate source or the central office PIO if the subject matter shifts to a topic beyond his area of expertise. The central office PIO shall respond to media inquiries directed to the Commissioner's Office.
4. Correctional employees shall notify the central office PIO in advance if they have made arrangements for media coverage of a special event or if they have arranged for a personal interview. If advance notification is not possible, in the case of an on-the-spot interview, the employee shall notify the central office PIO immediately following the interview.
5. The central office PIO shall be informed of all correspondence sent to, or received from, a representative of the news media.
6. Clippings from area newspapers pertaining to Corrections, institutions or probation and parole activities shall be forwarded immediately to the central office PIO. If the article involves a breaking news event, the article shall be faxed to the public information office.
7. This CPP shall be made available to media representatives upon request, or if the employee dealing with the media representative determines that dissemination is beneficial.

E. Release of Information

1. The institutional PIO shall report to the news media, as soon as possible, an escape, incident of serious violence, riot, or other disturbance that results in fatalities, major injuries, major property damage or other serious disruption of prison operations.

5. Media inquiries that involve issues such as disciplinary actions, litigation or other sensitive personnel matters regarding staff shall be referred to Corrections Personnel.

F. Procedures during Emergency Conditions

Admittance of media representatives to a correctional facility may be denied or limited during an emergency situation, including an escape, disturbance, fire, or natural disaster; however the news media may be granted access to the facility once it is determined that access will not jeopardize the security or safety of any person.

1. Media Staging Areas - A pre-designated area shall be established for the media to use as a staging area during an emergency condition. This area shall be as close to the emergency scene as possible without inhibiting the resolution of the situation. This briefing shall contain summary information.

3. Media Pools - A media pool may be formed to enter the correctional facility if it is determined that doing so shall no longer jeopardize the security or safety of any person.
